evolve**north**
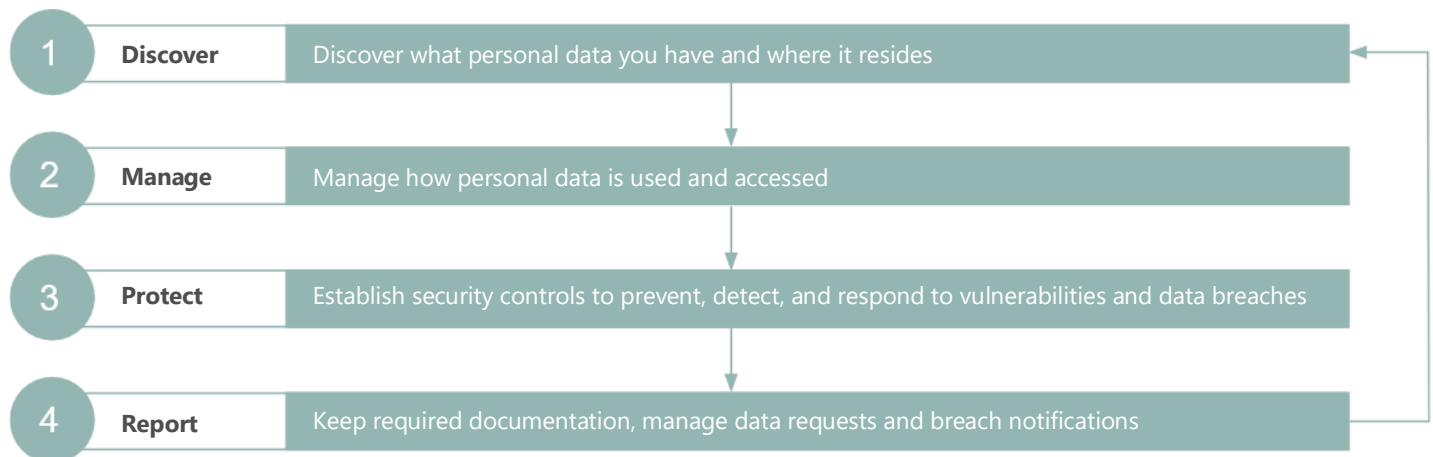

Office 365 Compliance Tools

Evolve North can help you get the most from your Office 365 subscription on your journey to GDPR compliance.

An ideal starting point is a detailed assessment of your GDPR readiness. We'll work with you to evaluate your organisation's privacy posture, uncover risks, provide expert guidance around the GDPR, and offer recommendations specific to your organisation.

1	**Discover**	Discover what personal data you have and where it resides
2	**Manage**	Manage how personal data is used and accessed
3	**Protect**	Establish security controls to prevent, detect, and respond to vulnerabilities and data breaches
4	**Report**	Keep required documentation, manage data requests and breach notifications

We have the skilled personnel, process knowledge and Microsoft technology expertise to evaluate your GDPR readiness and help you on your path to becoming compliant.

Microsoft Technology forms the basis of our GDPR solution

Process all in one place
Centralise processing in a single system, simplifying data management, governance, classification and oversight.

Maximize your protections
Protect data with industry-leading encryption and security technology that's always up-to-date and assessed by experts.

Streamline your compliance
Utilise services that already comply with complex, internationally-recognised standards to more easily meet new requirements, such as facilitating the requests of data subjects.

We will work with you to uncover risk and take action to:

Discover data across systems
- Discover and catalogue data sources
- Increase visibility with auditing capabilities
- Identify where personal info resides across devices, apps and platforms

Govern access and processing
- Enforce usage policies and access controls across your systems
- Classify data for simplified compliance
- Respond to data requests and transparency requirements

Protect through the entire lifecycle
- Protect user credentials with risk-based conditional access
- Safeguard data with built-in encryption technologies
- Rapidly respond to intrusions with built-in controls to detect and respond to data breaches
